**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

- 1) ☐ Responsive to communication(s) filed on \_\_\_\_.
- 2a) ☐ This action is **FINAL**.                      2b) ☒ This action is non-final.

## DETAILED ACTION

### Election/Restrictions

#### Election of species

This application contains claims directed to the following patentably distinct species:

A single disclosed species from the group pan HER inhibitor, a Src inhibitor, a MEK inhibitor, IGFIR inhibitor, an EGFR inhibitor, microtubule-affecting agent, a natural product, or a platinum coordination complex of said anticancer agent.

(a) If EGFR inhibitor is elected a single disclosed specie for an EGFR inhibitor.

(b) If Src inhibitor is elected a single disclosed specie for a Src inhibitor.

(c) If MEK inhibitor is elected a single disclosed specie for a MEK inhibitor, also define R1 to R7.

(d) If pan HER inhibitor is elected a single disclosed specie for pan HER inhibitor, also define R, R1-R4.

(e) If IGFIR inhibitor is elected please define X, Y, W, R1-R31.

(f) If IGFIR inhibitor is elected a single disclosed specie for a microtubule-affecting agent.

(g) If IGFIR inhibitor is elected a single disclosed specie for a natural product.

(h) If IGFIR inhibitor is elected a single disclosed specie for platinum coordination complex

The species are independent or distinct because claims to the different species recite the mutually exclusive characteristics of such species. In addition, these species are not obvious variants of each other based on the current record.

Applicant is required under 35 U.S.C. 121 to elect (1) a single disclosed species of said anticancer agents, and further a single specie of the elected anticancer agent.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species.

MPEP § 809.02(a).

The election of an invention or species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Should applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions or species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C.103(a) of the other invention.
